**Subject:** Proposed Workshop with Constitutional Officers

We have now received responses from all of the Constitutional Officers that we invited to the proposed workshop on August 31. The responses ranged from timing conflicts that would prevent attendance to suggestions that the format/location be changed to requests that the Commissioners visit offices to view operations, etc.

In light of the preceding, and after discussion with Chairman Aaronson, I am canceling the workshop.

We will re-consider timing and format for a future date. Commissioners may wish to individually take up the offers that have been made for visits.
