Permit Portal Application

 The first step in using the Permit Portal application is to go to the application login page, enter your email id and temporary password provided by Admin/Property Appraiser. When you press the Login button, the Application will then ask you to change your password.

• Login with your Email Id, new password and you will be able to view/enter your Municipality data. Each Municipality can only view their own data.

Permit Portal Application

Now that you are logged into the application, you will see the routines available to you on the top bar and in the
middle of the screen as well as any permits that have been entered today. Only today's permits can be modified
prior to the Property Appraiser's nightly update job.
